

Products

- | | |
|------------------------------------------------------------------|--------------------------------------------------------------|
| LightGUARD® Protected Membrane Roofing Panel | HeavyGUARD® Protected Membrane Roofing Panel |
| ProGUARD DP™ Insulated Concrete Board | ProGUARD® Non-Structural Concrete Insulated Sheathing |
| ThermaDRY® Insulating Drainage Panels | ProTEC®C-SIP – Concrete Structural Insulated Panels |
| WallGUARD® Concrete Faced Insulated Perimeter Wall Panels | |

LEEDv4 Credits

Products may contribute to the following LEEDv4 credits:

Energy & Atmosphere (EA)

- | | |
|-------------------------------|----------------|
| – Minimum Energy Performance | Prerequisite 2 |
| – Optimize Energy Performance | Option 1 |

Indoor Environmental Quality (EQ)

- | | |
|--------------------------|----------|
| – Thermal Comfort Design | Option 1 |
|--------------------------|----------|

LEEDv3 Credits

Products may contribute to the following LEEDv3/ 2009 credits:

Material & Resource (MR)

- Credit 1 “Building Reuse” (1 to 3 pts.)
- Credit 2 “Construction Waste Management” (2 pts.)
- Credit 3 “Resource Reuse” (3 pts.)
- Credit 4 “Recycled Content” (Pre-consumer and Post-Industrial)
- Credit 5 “Local/Regional Materials” (2 pts.) *Plant located at 3255 Symmes Rd. Hamilton, Ohio 45015.*

Sustainable Sites (SS)

- Credit 2&3 “Urban / Brownfield Redevelopment” (1-2 pts.)

Energy and Atmosphere (EA Credits)

- Prerequisite 2 “Minimum Energy Performance, Required for Certification”
- Credit 1 “Optimize Energy Performance” (1-20 pts.)

Environmental Quality (EQ Credits)

- Credit 7 “Thermal Comfort–Design” (1 pt.)

Collaborative of High Performance Schools (chps.net)

- | | |
|------------------------------------------|--------------------------------------|
| Energy Efficiency (EE) | EE1.0 Minimum Energy Performance |
| Indoor Environmental Quality (EQ) | EQ9.1 Minimum Acoustical Performance |
